EDUCATION

University
Bachelors in Software Development at the University of Kristianstad

08/2020 - 06/2023   *Kristianstad*

Svenska för invandrare (SFI)
Komvux Center

2019 - 2020   *Helsingborg*

Courses
- Finished SFI till level D

Gymnasium
International Baccalaureate Diploma Programme, International School of Helsingborg, General studies

2017 - 2019   *Helsingborg*

WORK EXPERIENCE

Bachelors Thesis with Volvo Cars
Volvo Cars

01/2023 - 04/2023   *Gothenburg, Sweden*
My thesis with Volvo Cars focused on applying graph-based theory to detect error patterns in software updates for cars. I built a Neo4j graph database using their data and used it to find and analyze errors.

Android Developer
Softhouse

12/2022 - 01/2023

Achievements/Tasks
- I along with my group members delivered an event planning app. I was responsible for setting up a sign-in button, a database with Firebase, and making the app easy to use.

Development Intern
Revam AB

05/2021 - 11/2021   *Malmö*
https://revam.tech/

Tasks
- Frontend: I helped in modifying the website's design. I was responsible for creating a modern and sleek homepage.
- Backend: I helped with database organization

Contact : Peter Olsson - peter@revam.tech
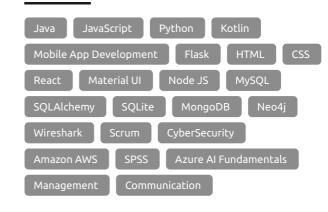

IKEA Student Day
IKEA

03/2022 - 03/2022

Tasks
- IKEA held an event for students to give them tips on how to reach out to the young adult population and encourage them to join the IKEA family. I suggested they make better ads, focus on their website, and try to make it as aesthetic as possible while replying to their customer's reviews more often and being as engaged as possible with their website visitors.
